

Chazz Redhead STUDIOS

My mission statement is to provide all clients with top quality audio production and recording, but it shouldn't come at the expense of anyone's safety

To ensure compatibility with current guidelines and to assure peace of mind for all who come to the studio, I have enacted this 4 point safety plan

Preparation – Before your arrival all equipment and door handles are throughourly disinfected, refreshments are prepared in recyclable cups

Protection – Upon your arrival, disinfectant spray, as well as disposable masks and gloves are available for use. There is also a temperature gun for further checks

Contactless Service – At your request, the studios can provide a contactless service, where you can enter the studio space and the vocal booth without having direct contact with any of the studio staff

No cancellation fee – if either yourself or the studio staff develop syptoms, the sessions can be cancelled or rearranged. Upon cancellation, the full amount of your session will be refunded
